

# Create the Life You Want with the **Creative Guidance Assessment.**

Imagine living a life where you feel loving and deeply loved, at peace in your mind, creatively fulfilled, and abundant in every way. If you're ready to embody the heroine/hero of your own story, the Creative Guidance Assessment is here to help you help yourself.

***Creativity is about shaping your entire reality.*** In this assessment, We serve only as your guides, the journey and its results depend entirely on your honesty and willingness to explore. This is a form of self-therapy: you are the hero, and your transformation is in your hands.

## **How It Works:**

### **1. Reveal Your Truth with Tarot**

We begin with a tarot reading (in the style of Jodorowsky and Costa's Way of Tarot) to help you see what you truly want and what may be holding you back across all areas of life: emotional, intellectual, creative, and material.

### **2. Transform from Within with Breathwork and Music Therapy**

Next, supported by a certified Music Therapist, we combine Raul Antezana's **Transcendent Psycho Reprogramming** breathwork protocol with music therapy techniques. The integration of music and guided breathing helps you access your subconscious, revisit past experiences, and release hidden blockages. Music deepens relaxation, reduces anxiety, and enhances the power of breathwork, creating a potent space for self-discovery and self-healing.

### **3. Anchor Your Transformation with Ritual**

Finally, together we create a personal ritual (Following Jodorowsky's Psychomagic Method) to symbolically and physically overcome your obstacles. Through artistic expression, you embody your new perspective and anchor your transformation into your daily life.

**With the CGA, you empower yourself to create a life filled with love, clarity, satisfaction, and abundance.**

But remembering that we are only your Guides – your willingness, honesty, and courage determine your journey.
